

Do you know how medications affect **YOUR MOUTH?**

To use the medication dental watch list on the other side of this document:

Look on the list for a medication you are taking. The medications are color-coded into four categories:

BLUE color-coded medications cause Xerostomia or dry mouth. Many medications on the list cause dry mouth. Dry mouth increases your risk to tooth decay and gum disease.

GREEN color-coded medications increase your risk for tooth decay.

YELLOW color-coded medications increase your risk for acid reflux. Acid reflux increases your risk for erosion to the tooth enamel.

RED color-coded medications increase the risk for irritation to the soft tissues of your mouth.

Taking daily medications can have an effect on the health of your mouth.

Ask your Dentist how to best protect the health of your mouth if you are taking a medication that puts your mouth at risk.

If you need help finding a dentist in your area please call:

855-CT-DENTAL (855-283-3682) Monday-Friday, 8 am – 5 pm

Hearing impaired clients, please dial **711** for Relay Connecticut Assistance

KEY

RISK FOR:			
Caries	*	Stomatitis	*
Xerostomia	*	Reflux	*

RISK FOR CARIES

Cholestyramine	Lithium	Questran
Copegus	Locholest	Rebetol
Eskalith-CR	Nortriptyline	Ribavarin
Fentanyl	Pamelor	Zonalon
(transmucosal)	Prevalite	

RISK FOR XEROSTOMIA

Abilify	Doxazosin	Lopid
Acamprosate	Duloxetine	Lopressor
Accutane	Duragesic	Loratadine
Advair	Enablex	Losartan
Alfuzosin	Escitalopram	Luvox
Anafranil	Esomeprazole	Meclizine
Antivert	Famotidine	Mesalamine
Aripiprazole	Fentanyl	Metoprolol
Asacol	Fluvoxamine	Monopril
Atarax	Fosinopril	Neurontin
Atomoxetine	Gabapentin	Nexium
Atrovent	Gemfibrozil	Pentasa
Baclofen	Granisetron	Pepcid
Budesonide	Guanfacine	Periactin
Buprenex	Haldol	Prinivil
Buprenorphine	Haloperidol	Pulmicort
Bupropion	Hydroxyzine	Rhinocort
Campral	Hyoscyamine	Rowasa
Carbidopa	Immodium	Salmeterol
Cardura	INH	Sinemet
Catapress	Insulin	Sporanox
Cetirizine	Ipratropium	Strattera
Celexa	Isoniazid	Subutex
Chlorpromazine	Isoretinoin	Tenex
Citalopram	Itraconazole	Thorazine
Claritin	Kytril	Toprol
Clomipramine	Levalbuterol	UroXatral
Clonidine	Levbid	Vistaril
Clozapine	Levocetirizine	Vyvanse
Clozaril	Levodopa	Wellbutrin
Cozaar	Lexapro	Xopenex
Cymbalta	Lioresal	Xyzal
Cyproheptadine	Lisdexamfetamine	Zestril
Darifenacin	Lisinopril	Zyban
	Loperamide	

RISK FOR STOMATITIS

Aldomet	Methyldopa
Azulfidine	Midodrine
Biaxin	Mirtazapine
Carbamazepine	Naprelan
Cetirizine	Naprosyn
Clarithromycin	Naproxen
Cognex	Plaquenil
Combivir	Prevacid
Diflunisal	ProAmatine
Dolobid	Propranolol
Flonase	Prozac
Flovent	Remeron
Fluoxetine	Sulfamethoxazole
Hydroxychloroquine	Sulfasalazine
Inderal	Sulfatrim
Indocin	Tacrine
Indomethacin	Tegretol
Lamivudine	Trexall
Lansoprazole	Zidovudine
Methotrexate	

RISK FOR REFLUX

Adalat	Motrin
Aliskiren	Nifedipine
Alprazolam	Nitro-Bid
Byetta	Nitro-Dur
Carnitor	Nitroglycerin
Chantix	Nitrostat
Cialis	Oxybutynin
Cytotec	Procardia
Ditropan	Sinequan
Enalapril	Sumatriptan
Exenatide	Tadalafil
Ibuprofen	Tekturna
Imitrex	Varenicline
Levocarnitine	Vasotec
Midazolam	Versed
Misoprostol	Xanax
